2007 Rising Stars

MICHELE MEDAGLIA PRESIDENT & CEO, ACC CONSTRUCTION

This past year, Michele Medaglia succeeded in increasing the earnings of the company by more than 20% and expanding its staff, while making ACC Construction the preeminent WBE (Woman-owned Business

Enterprise) construction management and general contracting firm in the greater New York Metropolitan area. In addition, she met all the criteria to have attained the prestigious national WBENC certification.

Since taking the helm of ACC Construction in 1995, Medaglia has become a recognized force in the industry.

Medaglia oversees all areas of the firm's operations, including estimating, purchasing, project management, finance, business development and marketing.

On her watch, the client base has been dramatically expanded and diversified and ACC's service lines now include everything from interior fit-outs to core-and-shell construction. In between running a \$60 million business with a client roster that includes Tiffany & Co., Tishman-Speyer, Commerce Bank, Stony Brook Hospital and CBRE, she continues to raise thousands of dollars for the AREW (Association of Real Estate Women) Charitable Fund and the Capuchin Food Pantries.
